Updated IBM® Informix® programs:

- **IBM Informix Growth Edition V11.50:** Ideal for mid-market partners, ISVs, and mid-size businesses; delivers hassle-free administration, high availability, and scalability for low cost of ownership.
- **IBM Informix Ultimate Edition V11.50:** Ideal for mid-market partners, large ISVs, and enterprises; delivers high performance, high availability, and scalability to power business applications with low cost of ownership.
- **XPS Storage Optimization Feature for IBM Informix Extended Parallel Server V8.51FC3:** An optional feature that offers the opportunity to reduce storage costs while improving query performance; available on the Processor Value Unit (PVU) charge metric.

To order, contact your IBM representative, an IBM Business Partner, or the Americas Call Centers at 800-IBM-CALL.

Overview

New IBM Informix editions are now available to help deploy highly scalable, more reliable, and embeddable solutions at lower cost for mid-market and large enterprise business solutions.

IBM Informix Growth Edition V11.50

Informix Growth Edition is a high performance, more reliable, easier-to-administer edition of the Informix family that helps mid-market partners and businesses develop and deploy business solutions. Features include HDR, Enterprise Replication, SQL Warehousing Tool, Label Based Access Control, and clustering up to three

nodes. These features enable a broad spectrum of application and solution development.

IBM Informix Ultimate Edition V11.50

Informix Ultimate Edition delivers higher performance, unlimited scalability, and higher availability with lower cost of ownership. Informix Ultimate Edition is designed for large ISVs and enterprise data centers.

XPS Storage Optimization Feature for IBM Informix Extended Parallel Server (XPS) V8.51FC3

This optional XPS Storage Optimization Feature for Informix XPS V8.51FC3 is available on the Processor Value Unit (PVU) charge metric. This feature can help reduce storage costs while improving query performance through reduced disk I/Os and improved efficiency of memory buffer pools usage. You can select which tables and fragments to compress to optimize business customization. In addition, XPS V8.51FC3 contains enhanced disk space management that allows rows of a table to be repacked for storage optimization and empty extents at the end of a table to be truncated to release unused space.

If you have IBM Data Management Gold Program - Business Intelligence Offering entitlements, you may acquire the XPS Storage Optimization Feature separately.

In addition, the processor charge metric is being converted to PVUs for IBM Informix Extended Parallel Server (XPS) and IBM DB2 Business Intelligence.

Key prerequisites

Description

New Informix editions are designed to help you maximize your investment and minimize your costs while benefitting from enterprise class functionality. Informix is embedded in a large number of products and solutions. Informix is widely deployed across a large range of industries, from small to medium to global enterprise businesses. Informix is ideal for small to medium size businesses, offering your administration fewer hassles and greater reliability. Informix's rich set of high-availability and scalability functions enables enterprise customers to scale their

solutions across the globe, utilizing available hardware to help maximize return on their IT infrastructure investment.

IBM Informix Growth Edition

Enhanced capabilities over the Informix Innovator-C Edition, including:

- Full Enterprise Replication; unlimited nodes, as either admin/root or leafnode
- SQL Warehousing Tool
- Label Based Access Control

Allowed usage of Informix Growth Edition:

- Maximum 16 GB of memory as the sum of SHMTOTAL across all database instances of an Informix Growth Edition install
- Maximum of 4 sockets; total of 16 cores when purchased on Limited Use Socket metric

Functional limits:

- 3-node cluster with one primary and two secondary nodes of any type (High Availability Data Replication (HDR), RSS, or SDS)

IBM Informix Ultimate Edition

Informix Ultimate Edition provides enhanced capabilities over Informix Growth Edition, including capabilities required to run enterprise-level business applications. The Storage Optimization Feature (for Compression) is available as an option and may be purchased separately.

New no-charge editions

The following no-charge editions are now available as separate offerings subject to the IBM International License Agreement for Non-warranted Programs (ILAN).

IBM Informix Innovator-C Edition V11.50

Informix Innovator-C Edition is a no-charge, non-warranted production-ready, community-edition data server that is designed to help developers, mid-market partners, ISVs, and small businesses accelerate time to value and reduce total cost of ownership. Informix Innovator-C Edition is part of the IBM Informix data server family that is designed to support autonomic administration, higher performance, and greater reliability. It includes the powerful Enterprise Replication feature that helps replicate data between two Informix Innovator-C Edition installations for scalability and availability. It also includes Informix HDR with a warm or hot standby node for automatic failover.

IBM Informix Ultimate-C Edition for Windows® and Mac OS X

Informix Ultimate-C Edition for Windows and Mac OS X is a no-charge, non-warranted, feature-rich edition for Microsoft® Windows and Mac OS X developers, solution providers, and ISVs. Features include Partitioning, Parallel features, HDR, Enterprise Replication, SQL Warehousing Tool, Label Based Access Control, and clustering up to two nodes. The Ultimate-C Edition brings database server capabilities to the mid-market, helping customers and partners develop solutions more easily and quickly.

For additional information on Innovator-C Edition and Ultimate-C Editions and how to download, refer to

<http://www.ibm.com/informix>

Elite level Selected Support for no-charge editions

You may purchase 12-month Elite level Selected Support for the new no-charge editions to receive technical support and software upgrades and updates.

For additional information on support, refer to

<http://www.ibm.com/informix/support>

Section 508 of the U.S. Rehabilitation Act

Informix Ultimate Edition is capable as of May 25, 2010, when used in accordance with IBM's associated documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act, provided that any assistive technology used with the product properly interoperates with it. A U.S. Section 508 Voluntary Product Accessibility Template (VPAT), containing details on the products accessibility compliance, can be requested on the following Web site

http://www.ibm.com/able/product_accessibility/index.html

The following third-party products are not covered under the IBM license agreement:

IBM product name	Third-party product
Informix Growth Edition	Server Studio with Sentinel
Informix Ultimate Edition	Server Studio with Sentinel

IBM makes no representation about the Section 508 status of these third-party products included in this offering. Contact the vendor for specific, current information on the Section 508 status of these products.

Education support

IBM training provides education to support many IBM offerings. Descriptions of courses for IT professionals and managers are on the IBM training Web site

<http://www.ibm.com/services/learning/>

Call IBM training at 800-IBM-TEACH (426-8322) for catalogs, schedules, and enrollments.

Available training offerings include client on-site training, public training at IBM facilities, and remote learning via FlexLearning. Through client on-site training, IBM delivers standard or customized training to meet the requirements of its clients. IBM can also provide mobile academies for a rental fee to minimize clients' setup activities.

IBM public training simplifies the process by providing the complete environment for standard course deliveries and giving students the ability to learn without the distractions of everyday responsibilities. Public training is offered on a regular schedule worldwide. For more information on public instructor-led training, visit

<http://www.ibm.com/software/data/ips/services/learning.html>

The newly enhanced FlexLearning program enables clients to attend training on their own schedule at their own location. This program offers state-of-the-art technology to deliver highly valuable training at minimum cost. All current courses are approximately three hours in length and offer a valuable learn-by-doing, self-paced format.

For more information on any of the training offerings, contact

iiseduc@us.ibm.com

Offering Information

Product information is available via the Offering Information Web site

<http://www.ibm.com/common/ssi>

Publications

No publications are shipped with these products.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the U.S.) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

Technical information

Specified operating environment

Hardware and software requirements

Minimum hardware and software requirements are summarized in the following table:

Operating system	Version	Hardware platform
Linux	Intel® x86, EM64T, AMD64: RHEL 5, RHEL 4 Update 3, or later Asianux 3.0, 2.0 Debian 5.0, 4.0 SUSE SLES 11, 10 Ubuntu 8.04 LTS, 6.06.1 LTS IBM System z® (64 bit): RHEL 5, RHEL 4 Update 3, or later SUSE SLES 10 System p, System i, OpenPower®, JS20 Blades: RHEL 5, RHEL 4 Update 6, or later Asianux 3.0, 2.0 SUSE SLES 10	Intel x86, Itanium®, x86_64 (EM64T/AMD64), System p®, System i®, System z
AIX	AIX® V6.1, AIX 5L™ V5.3 (32 and 64 bit)	PowerPC
HP-UX	Itanium (64 bit): HP-UX 11.31, 11.23 PA-RISC (32 and 64-bit): HP-UX 11.31, 11.23, 11.11	PA-RISC or Itanium
Solaris	SPARC (32 and 64 bit): Solaris 10, 9 Intel (64 bit): Solaris 10	Sparc, x86 or x64 (AMD64, Intel EM64T)
Windows	windows XP, windows 2003, windows 2008, windows Vista, windows 7	x64 (AMD64, Intel EM64T)

Mac OS X Mac OS X 10.5.2, or Intel EM64T
 later "Leopard"
 Mac OS X 10.6 "Snow
 Leopard"

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

Packaging

Ultimate and Growth Editions provide:

- Informix 11.50.xC7
- Informix Client SDK 3.50.xC7 (including Data Server Package)
- Informix JDBC 3.50.JC7
- Informix ILS 3.50.MC4
- Informix Spatial Datablade 8.21.xC3
- Informix Web Datablade 4.13.xC4
- Informix SQL Warehousing Tool Client/Server 11.50.xC7
- AGS Server Studio with Sentinel (limited)

For additional information on Innovator-C Edition and Ultimate-C Editions and how to download, refer to

<http://www.ibm.com/informix>

Security, auditability, and control

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Ordering information

This product is only available via Passport Advantage. It is not available as shrinkwrap.

These products may only be sold directly by IBM or by authorized IBM Business Partners for Software ValueNet®.

For more information about IBM Software ValueNet, visit

http://www-01.ibm.com/software/lotus/passportadvantage/IBM_SW_ValueNet.html

To locate IBM Business Partners for Software ValueNet in your geography for a specific Software ValueNet portfolio, contact your IBM representative.

Charge metrics definitions

Processor Value Unit (PVU)

PVU is the unit of measure by which this program is licensed. PVU entitlements are based on processor families (vendors and brands). A Proof of Entitlement (PoE) must be obtained for the appropriate number of PVUs based on the level or tier of all processor cores activated and available for use by the program on the server.

Some programs offer sub-capacity licensing (licensing to less than the full capacity of the server's activated processor cores). For programs that offer sub-capacity licensing, if a server is partitioned utilizing eligible partitioning technologies, PoE must be obtained for the appropriate number of PVUs based on all activated processor cores available for use in each partition where the program runs or is managed by the program.

Refer to the International Passport Advantage Agreement Attachment for Sub-Capacity Terms or the program's License Information to determine applicable sub-capacity terms. The PVU entitlements are specific to the program and may not be exchanged, interchanged, or aggregated with PVU entitlements of another program.

For a general overview of PVUs for processor families (vendors and brands), refer to

http://www-306.ibm.com/software/lotus/passportadvantage/pvu_licensing_for_customers.html

To calculate the exact PVU entitlements required for the program, refer to

<https://www-112.ibm.com/software/howtobuy/passportadvantage/valueunitcalculator/vucalc.wss>

Authorized User single install

Licensee must acquire a separate Authorized User single install license entitlement for each Authorized User of the program accessing each individual install.

Authorized User single install is a unit of measure by which the program can be licensed. An Authorized User is a unique person who is given access to the program. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. The program may be installed on any number of computers or servers, but if the Authorized User has accessed or has access to more than one Install of the program, the Authorized User requires a separate entitlement for each such install.

Licensee must obtain separate, dedicated entitlements for each Authorized User accessing the program on each install in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

A client device is considered a separate Authorized User of the program and requires an entitlement as if that client device were a person.

Concurrent Session

A Concurrent Session is a logical connection made between each database instance created by an install and a client device. Each such connection is counted as a Concurrent Session whether or not it is actually in use and regardless of the duration of the connection and period of activity. If an individual end user establishes multiple connections, each one is counted as a separate Concurrent Session, even if they share a common physical pathway. From the day the licensee began using the program, the highest number of connections established at any time for each database instance created by an install will be counted for purposes of determining the total Concurrent Session entitlements required. The licensee must acquire entitlements for the greatest number of logical connections established at any time for all database instances created by each install.

Each logical connection made between a client device and a copy of a database instance created by an install is counted as a Concurrent Session for which an entitlement is required. For example, if there are two different installs and each creates two separate database instances, and a single client device is connected to each database instance on both installs, then four Concurrent Sessions have been established and a PoE must be acquired for each of them. As a further example, if four database instances are created by two different installs and a single client device is connected, directly or indirectly, to each of the four database instances of the program, then eight Concurrent Sessions have been established and a PoE must be acquired for each of them.

The licensee must obtain separate, dedicated entitlements for each Concurrent Session that is in existence or has been in existence. An entitlement for a Concurrent Session is unique to that client device and a specific database instance created for an install may not be shared, nor may it be reassigned other than for the permanent replacement of that client device with another client device.

Each logical connection from a client device made, directly or indirectly, to a database instance created for an Install, through connections from within the licensee's enterprise, or through the Internet (connections from outside licensee's enterprise), is counted as a separate Concurrent Session and a separate entitlement (PoE) must be acquired for such Concurrent Session.

A PoE is required for each Concurrent Session established to access the program or any program component, either directly or indirectly, through any means. An example of "indirect" access would be through a multiplexing program, client device, or application server. The number of connections is not reduced by any program, client device, or machine, such as a front-end server, application server,

or multiplexer, which may be used to connect, manage, and concentrate the logical connections.

Install

Install is a unit of measure by which the program can be licensed. An install is an installed copy of the program on a physical or virtual disk made available to be executed on a computer. The licensee must obtain an entitlement for each install of the program.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and PoE govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

License Information form numbers

Program name	Program number	Form number
Elite Spt for IFMX Ultimate-C Ed WDWS MacOS	5725-A41	NA
Elite Support for Informix Innovator-C Edition	5725-A38	NA
IBM DB2 Business Intelligence	5724-E17	L-KLET-6XSLMP
Informix Express Edition	5724-Z04	L-DPAS-83SSQZ
Informix Extended Parallel Server (XPS)	5724-C19	L-KLET-82CQNA

The program's License Information will be available for review on the IBM Software License Agreement Web site

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the IBM Software Support Handbook found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product will be available for a minimum of five years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates, releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

Money-back guarantee

For clarification, note that if for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that for programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.

For clarification, note that for programs acquired under any of IBM's On/Off CoD software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Authorization for use on home/portable computer

The program may be stored on the primary machine and another machine, provided that the program is not in active use on both machines at the same time. You may not copy and use this program on another computer without paying additional license fees.

Elite Spt for IFMX Ultimate-C Ed WDWS MacOS	Yes
Elite Support for Informix Innovator-C Edition	Yes
IBM DB2 Business Intelligence	Yes
Informix Express Edition	Yes
Informix Extended Parallel Server (XPS)	Yes

International Passport Agreement

Volume orders (IVO)

No

Passport Advantage applies

Yes, and through the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Software Subscription and Support (Software Maintenance)

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support (also referred to as Software Maintenance) is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Handbook at

<http://www.ibm.com/support/handbook>

Software Subscription and Support (also referred to as Software Maintenance) does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

Other terms

System i Software Maintenance applies

No

Educational allowance available

Not applicable.

On/Off CoD

To be eligible for On/Off CoD pricing, customers must be enabled for temporary capacity on the corresponding hardware, and the required contract - Z125-6907, Amendment for iSeries® and pSeries® Temporary Capacity On Demand - Software - must be signed prior to use.

Prices

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner, or authorized IBM Business Partner for Software ValueNet, if applicable. Additional information is also available at

<http://www.ibm.com/software/passportadvantage>

Business Partner information

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBM ID and password are required.

<https://www.ibm.com/software/howtobuy/passportadvantage/paoreseller>

IBM Global Financing

IBM Global Financing offers competitive financing to credit-qualified customers to assist them in acquiring IT solutions. Offerings include financing for IT acquisition, including hardware, software, and services, both from IBM and other manufacturers or vendors. Offerings (for all customer segments: small, medium, and large enterprise), rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit

<http://www.ibm.com/financing>

IBM Global Financing offerings are provided through IBM Credit LLC in the United States, and other IBM subsidiaries and divisions worldwide to qualified commercial and government customers. Rates are based on a customer's credit rating, financing terms, offering type, equipment type, and options, and may vary by country. Other restrictions may apply. Rates and offerings are subject to change, extension, or withdrawal without notice.

Financial benefit

Financing from IBM Global Financing helps you preserve cash and credit lines, enables more technology acquisition within current budget limits, permits accelerated implementation of economically attractive new technologies, offers payment and term flexibility, and can help match project costs to projected benefits. Financing is available worldwide for credit-qualified customers.
