

IBM Informix Dynamic Server 7 Now Available through Passport Advantage

Overview

Informix™ Dynamic Server is a best-of-breed, general-purpose online transaction processing (OLTP) database for the enterprise and workgroup which:

- Supports databases up to four terabytes
- Provides access (queries, and so forth) to all client information through an IBM or a competitor's database
- Links a few or hundreds of Informix Dynamic Server 7 (IDS7) databases (stores, distribution centers)
- Provides the highest levels of continuous availability
- Contains innovative features for achieving unsurpassed transaction rates, optimum response times, ease of management, and low cost of operation
- Delivers high-performance transactional replication for industry-leading performance
- Provides replication capabilities for linking stores to distribution centers, distribution centers to corporate headquarters, or any information requiring reliable and quick dissemination across a global organization

IDS7 is available in three configuration options:

- Workgroup Edition V7.31 — Ideal for small to medium size businesses and departmental solutions that require the power of an Enterprise Database.

- Enterprise Edition V7.31 — Provides all of the features of IDS Workgroup Edition plus features that take advantage of today's large-scale SMP systems. License is based on number of concurrent sessions.
- Enterprise Edition Unlimited V7.31 — Same features as IDS Enterprise Edition except license is CPU based.

Informix information management solutions are open, scalable, and manageable, providing the kind of flexibility that is essential for growing organizations. From data warehousing, to analysis and decision support, to Web content delivery, Informix products are engineered to enable today's businesses to efficiently manage any kind of information, anywhere, and at any time.

For more detailed information, refer to the **Description** section.

Key Prerequisites

Refer to the **Hardware Requirements** section of this document.

Planned Availability Date

May 31, 2002

At a Glance

IBM Informix Dynamic Server 7 (IDS7):

- Delivers superior reliability which meets the needs of today's demanding e-business environment — particularly for applications requiring high-performance transactions
- Supports complex and rigorous online transaction processing requirements
- Optimizes competitive business intelligence capabilities
- Maximizes data operations for the workgroup and the global enterprise
- Provides a proven, best-of-breed database management solution

For ordering, contact:

Your IBM representative, an IBM Business Partner, or IBM Americas Call Centers at

800-IBM-CALL

Reference: SE001

Description

Section 508 of the U.S. Rehabilitation Act

IDS7 Workgroup Edition

IDS7 Workgroup Edition specifications:

- **High availability**
 - Point-in-time instance wide restore
 - Table level backup and recovery
 - XBSA support for easy integration of third-party backup tools
 - Supports high-availability clustering solutions
- **High-performance technology**
 - Multithreaded architecture for SMPs with asynchronous I/O
 - Cascading deletes; in-place table alters add and delete columns in seconds; bi-directional indices
- **Federated data access**
 - IBM distributed SQL supports queries across multiple IBM and third-party databases with our Enterprise Gateway products

IDS7 Enterprise Edition

IDS7 Enterprise Edition has all the features of Workgroup Edition plus:

- **Data Partitioning** — Partition your data across multiple disks or disk subsystems via simple round-robin distribution or powerful range (expression)-based fragmentation techniques.
- **Parallel Data Query** — Once your data is partitioned, you can leverage IDS's parallel data query technology to query each partition in parallel. Use this feature to dramatically speed the queries in your applications.
- **Parallel Backup and Restore** — IDS Enterprise Edition can back up and restore your data in parallel. No need to serially back up your database. Instead, backup each partition individually. Online consistent backups.
- **Parallel Load and Unload** — The high performance loader provided with IDS Enterprise Edition takes advantage of IDS's data partitioning model to speed moving data in and out of your database.
- **Enterprise Replication** — A high speed, very flexible, low latency replication solution that is ideal for the needs of the Enterprise.
- **High Availability Data Replication (HDR)** — HDR is IDS's proven high-availability solution. HDR has been shipping with IDS since 1993 and continues to provide the very high levels of continuous availability that Informix customers have enjoyed for nearly a decade.

IDS7 is capable, as of May 28, 2002, when used in accordance with IBM's associated documentation, of satisfying the applicable requirements of Section 508 of the Rehabilitation Act, provided that any assistive technology used with the product properly interoperates with it.

Trademarks

Informix is a trademark of International Business Machines Corporation in the United States or other countries or both. Other company, product, and service names may be trademarks or service marks of others.

IBM US Announcement Supplemental Information

May 28, 2002

Offering Information

Product information will be available on day of announcement through Offering Information (OITool) at:

<http://www.ibm.com/common/ssi>

Publications

Informix™ documentation is offered in displayable softcopy form.

The Publications Notification System (PNS) is available by order number/product number. Customers currently subscribing to PNS will automatically receive notifications by e-mail. Customers who wish to subscribe, can visit the PNS Web site location at:

<http://www.ibm.com/shop/publications/pns/>

The IBM Publications Center Portal:

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided, as well as payment options via credit card. Furthermore, a large number of publications are available online in various file formats, which can currently be downloaded free of charge.

Note that PNS subscribers most often order their publications via the Publications Center.

Technical Information

Specified Operating Environment

Hardware Requirements: IDS7 runs on most systems that run UNIX® or Windows® operating systems. We recommend a minimum of:

- 500 MB of disk space
- 128 MB of memory

Many applications will require substantially larger systems. Your IBM representative will work with you to optimize the hardware required for your application.

For more information, refer to the Web site at:

<http://www.ibm.com/software/data/informix/support>

Software Requirements

Minimum software requirements are as follows:

- IBM eServer™ pSeries
 - AIX® 4.3.3, 5.1, or later, (32-bit)
 - AIX 4.3.3 (64-bit)

- SPARC
 - Sun Solaris 2.6, or later, (32-bit)
 - Sun Solaris 8, or later, (64-bit)
- PA-RISC
 - HP-UX 11 and 11i (32-bit)
 - HP-UX 11 and 11i (64-bit)
- Intel®
 - Windows NT® 4.0, Windows 2000 Server Editions
 - Caldera SCO OpenServer 5.0.6, or later
 - Caldera SCO UnixWare 7.1.1
 - Caldera SCO OpenUnix 8
 - Linux: kernel versions 2.2.12, or later
 - Linux: glibc versions 2.1.2, or later
- Alpha
 - Compaq Tru 64 5.1
- RM
 - Fujitsu-Siemens Reliant UNIX (32-bit and 64-bit) 5.4, or later
- MIPS
 - SGI Irix 6.5, or later
- DYNIX/ptx® 4.5.2, 4.5.3 and 4.6.1

For more information, refer to the Web site at:

<http://www.ibm.com/software/data/informix/support>

Planning Information

Packaging

IDS7 Windows NT Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IBM International Program License Agreement (IPLA) in multi-language booklet and its License Information in multiple languages
- One README First Informix Dynamic Server V7.31
- One Installation Guide for Informix Dynamic Server on Windows NT
- One serial key file
- Eight CD-ROMs, including five language supplement CDs

IDS7 AIX, SOL HP 32 Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multi-language booklet and its License Information in multiple languages
- Two installation guides for Informix Dynamic Server on UNIX
- One Informix Client Installation Guide
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file

This announcement is provided for your information only. For additional information, contact your IBM representative, call 800-IBM-4YOU, or visit the IBM home page at: <http://www.ibm.com>.

- Installation Guide for Informix Dynamic Server on Windows NT
- Eleven CD-ROMs, including five language supplement CDs

IDS7 AIX, SOL HP 64 Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multilanguage booklet and its License Information in multiple languages
- Two installation guides for Informix Dynamic Server on UNIX
- One Informix Client Installation Guide
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file
- Installation Guide for Informix Dynamic Server on Windows NT
- Ten CD-ROMs, including five language supplement CDs

IDS7 UNIX Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multilanguage booklet and its License Information in multiple languages
- Two installation guides for Informix Dynamic Server on UNIX
- One Installation Guide for Microsoft™ Windows Environment
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file
- Nine CD-ROMs, including five language supplement CDs

IDS7 Tru 64 Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multilanguage booklet and its License Information in multiple languages
- Two installation guides for Informix Dynamic Server on UNIX
- One Installation Guide for Microsoft Windows Environment
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file
- Eight CD-ROMs, including five language supplement CDs

IDS7 Reliant Unix, IRIX Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multilanguage booklet and its License Information in multiple languages

- Two installation guides for Informix Dynamic Server on UNIX
- One Installation Guide for Microsoft Windows Environment
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file
- Eleven CD-ROMs, including five language supplement CDs

IDS7 DYNIX® Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multilanguage booklet and its License Information in multiple languages
- Two installation guides for Informix Dynamic Server on UNIX
- One Installation Guide for Microsoft Windows Environment
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file
- Ten CD-ROMs, including five language supplement CDs

IDS7 UNIX OpenServer Package — Enterprise Edition, Enterprise Edition Unlimited, Workgroup Edition

- IPLA in multilanguage booklet and its License Information in multiple languages
- Two installation guides for Informix Dynamic Server on UNIX
- One Installation Guide for Microsoft Windows Environment
- One README First Informix Dynamic Server for Fujitsu-Siemens Systems
- One README First for Informix Client SDK
- One README First for Informix Dynamic Server
- One serial key file
- Ten CD-ROMs, including five language supplement CDs

Ordering Information

IDS7 is a Passport Advantage only product with charge units varying by configuration option as follows:

- IDS7 Workgroup Edition: Server and Concurrent Session
- IDS7 Enterprise Edition: Concurrent Sessions in packs of 10
- IDS7 Enterprise Edition Unlimited: Processor

IDS7 is available through IBM's Passport Advantage offering. The software license for IDS7 includes Software Maintenance.

Software Maintenance —previously available separately as Software Subscription and Technical Support —is the most effective way for you to ensure that your users have the latest technology at their fingertips and maintain the highest levels of productivity. With Software Maintenance, your IS technical staff has continual access to IBM software technical support centers, as needed.

Software Maintenance is the most effective strategy for staying up to date and assuring technical support coverage is available whenever you need it. It provides you with access to new versions and releases of the product and allows for cross-platform migration at no extra cost during the coverage period.

In addition to software upgrades, an integral part of Software Maintenance is technical support designed to meet the support requirements of a customer running multiple IBM products in a complex environment. The support is not intended as an end-user support offering, but is designed to supplement your support staff by providing telephone and electronic cross-platform support for routine, short duration installation, as well as usage (how-to) questions, and code-related problems.

Software Maintenance is automatically included with the license until the first or second anniversary date of your Passport Advantage contract, dependent on the anniversary coverage you selected with your initial acquisition.

For additional information, including the latest changes to the IBM Passport Advantage offering, visit the IBM Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

Terms and Conditions

Licensing: IBM International Program License Agreement (IPLA). Proofs of Entitlement (PoE) are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

License Information Form Number: CT1CFML

Limited Warranty Applies: Yes

Program Services: Program Services are available until December 31, 2005. For related information, refer the Informix TechInfo Center at:

<http://www.ibm.com/software/data/informix/support>

Money-Back Guarantee: If for any reason you are dissatisfied with the program, return it within 30 days from the invoice date, to the party (either IBM or its reseller) from whom you acquired it, for a refund. This applies only to your first acquisition of the program.

Copy and Use on Home/Portable Computer: No

Volume Orders (IVO): No

Passport Advantage Applies: Yes and through the Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

Usage Restriction: Yes

Your use of a program may not exceed the level defined by the number of use authorizations you have acquired. The level of use of a program is specified by one of the following:

- **Server** — Server means a server on which the program is installed or executed.
- **Processor** — Processor means a processor that forms part of the server on which the program is installed or executed. You must acquire a use authorization for each such processor.
- **Concurrent Session** — A Concurrent Session, at a given point in time, is each logical connection, existing at that time, between the program and an end user interface device. Each such existing connection is counted as a Concurrent Session whether or not it is actually in use. If an individual end user establishes multiple connections, each one is counted as a separate Concurrent Session, even if they share a common physical pathway. The number of connections is not reduced by any program or

machine, such as a front-end server or multiplexer, which may be used to concentrate the connections. Each batch process being executed at the same time is also considered to be a Concurrent Session.

However, for the IDS7 Workgroup Edition, you must acquire use authorizations for both Servers and Concurrent Sessions. Note that each Server use authorization includes one Concurrent Session use authorization. Therefore, for example, if you require a Server and ten Concurrent Sessions, you should acquire one Server use authorization and nine Concurrent Session use authorizations.

IDS7 7 Workgroup Edition

The following restrictions apply only to IDS7 Workgroup Edition:

- **Server Limitation** — You may not install or use the program on a Server that has more than two processors.
- **Function Limitations** — You may not use the following functions of the program: parallel data query, data partitioning, parallel backup, parallel restore, parallel load, parallel unload, optical disks, Enterprise Replication (ER), High Availability Data Replication (HDR), VLM (ability to access more than 2 GB RAM).

Software Maintenance Applies: Yes

Software Maintenance, previously referred to as Subscription and Technical Support, is now included in the Passport Advantage Agreement. Installation and technical support for the products announced in this letter is provided by the Software Maintenance offering of the IBM International Passport Advantage Agreement. This fee service enhances customer productivity by providing voice and/or electronic access into the IBM support organizations.

IBM includes Software Maintenance with each program acquired during the coverage period. Coverage period means the period commencing on the date you acquire the program up to the first or second Anniversary Date, depending on whether you acquired coverage for one or two anniversaries. The coverage period for Software Maintenance acquired in the two months preceding an Anniversary Date will be extended to the next applicable Anniversary Date.

While your Software Maintenance is in effect, IBM provides you assistance for your (1) routine, short duration installation and usage (how-to) questions; and (2) code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not

available to your end users.) IBM provides Severity 1 assistance 24 hours a day, every day of the year. For further details, consult your IBM Software Support Guide at:

<http://techsupport.services.ibm.com/guides/handbook.html>

Software Maintenance does not include assistance for (1) the design and development of applications, (2) your use of programs in other than their specified operating environment, or (3) failures caused by products for which IBM is not responsible under this Agreement.

For more information about the Passport Advantage Agreement, refer to the IBM International Passport Advantage Agreement Software Announcement 201-202, dated July 10, 2001, or visit the Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

IBM Operational Support Services — Support Line: No

AIX/UNIX Upgrade Protection Applies: No

Entitled Upgrade for Current AIX/UNIX Upgrade Protection Licensees: No

IBM eServer iSeries Software Subscription Applies: No

Variable Charges Apply: No

Educational Allowance Available: Not applicable
