

Selected IBM Informix Products Available through Passport Advantage

Overview

Informix information management solutions are open, scalable, manageable, and fully extensible, providing the kind of flexibility that is essential for growing organizations. From data warehousing, to analysis and decision support, to Web content delivery, Informix products are engineered to enable today's businesses to efficiently manage any kind of information, anywhere, and at any time.

With this announcement, the following Informix products are available through IBM's Passport Advantage offering:

- IBM Informix Dynamic Server (IDS) Workgroup Edition
- IBM IDS Enterprise Edition
- IBM IDS Enterprise Edition Unlimited
- IBM Informix Extended Parallel Server (XPS)
- IBM Red Brick Workgroup Edition
- IBM Red Brick Enterprise Edition
- IBM Informix C-ISAM
- IBM Informix OnLine
- IBM Informix SE
- IBM Informix NET
- IBM Informix STAR
- IBM Informix SQL Development
- IBM Informix SQL Runtime
- IBM Informix C-ISAM DataBlade
- IBM Informix Geodetic DataBlade
- IBM Informix Image Foundation DataBlade
- IBM Informix NAG Finance DataBlade
- IBM Informix TimeSeries DataBlade
- IBM Informix TimeSeries Real Time Loader Bundle
- IBM Informix Web DataBlade
- IBM Informix I-Spy
- IBM Informix MaxConnect
- IBM Informix 4GL, RDS Development
- IBM Informix 4GL, RDS Runtime
- IBM Informix 4GL Interactive Debugger Development
- IBM Informix 4GL Compiler Development

- IBM Informix 4GL Compiler Runtime
- IBM Informix ESQL/C Development
- IBM Informix ESQL/C Runtime
- IBM Informix ESQL for COBOL
- IBM Informix Object Translator
- IBM Office Connect
- IBM Informix Enterprise Gateway with DRDA®
- IBM Informix Enterprise Gateway Manager
- IBM Informix Data Director for Web
- IBM Informix Metacube ROLAP Option Direct Clients
- IBM Informix Metacube ROLAP Option Indirect Clients
- IBM Informix Metacube ROLAP Option Agents
- IBM Informix Connect Runtime
- IBM Informix JDBC Driver/Embedded SQL
- IBM Informix Client SDK
- IBM Informix Server Administrator
- IBM Informix Excalibur Text Search DataBlade
- IBM Informix Spatial DataBlade
- IBM Informix Video Foundation DataBlade
- IBM Informix Database Administrator

Planned Availability Date

April 5, 2002

At a Glance

With this announcement, selected IBM Informix products are available through IBM's Passport Advantage offering.

For ordering, contact:

Your IBM representative, an IBM Business Partner, or IBM Americas Call Centers at

800-IBM-CALL

Reference: YE001

This announcement is provided for your information only. For additional information, contact your IBM representative, call 800-IBM-4YOU, or visit the IBM home page at: <http://www.ibm.com>.

Description

Selected Informix products are now available through IBM's Passport Advantage offering, which includes Software Maintenance. For these products, Passport Advantage Software Maintenance replaces Informix Assurance, Informix OpenLine, and Informix 24 x 7 Emergency Support.

Beginning April 5, 2002, Informix Assurance, Informix OpenLine, and Informix 24 x 7 Emergency Support subscribers will be eligible to be enrolled in the IBM Passport Advantage offering before or upon the scheduled renewal date of their Informix maintenance programs.

With this announcement, Informix products join other IBM Software Group distributed software products, including Tivoli®, DB2®, WebSphere®, and Lotus®, in Passport Advantage. Passport Advantage Software Maintenance is IBM's worldwide base maintenance offering that enables your IT staff to access technical support around the clock and to obtain new product releases and code-related problem fixes.

Since Passport Advantage is available across all IBM Software Group brands, subscribers benefit from increased buying power. With each eligible software product they purchase, Passport Advantage subscribers accumulate "points." The higher the points, the greater the volume discounts to which they are entitled. Under Passport Advantage, subscribers can also establish a common anniversary date for renewals of all IBM Software maintenance coverage, making it easier to manage and budget for access to updates and upgrades and technical support for all eligible products.

Software Maintenance is the most effective strategy for staying up to date and assuring technical support coverage when you need it. Software Maintenance provides you with access to new versions and releases for covered products, and allows for eligible cross-platform migration at no extra cost during the coverage period. In addition to software upgrades, an integral part of Software Maintenance is technical support designed to meet the support requirements of a customer running multiple IBM products in a complex environment. The support is not intended as an end-user support offering, but is designed to assist your support staff by providing telephone and electronic cross-platform support for routine, short duration installation and usage questions. Software Maintenance is included with all new licenses until the first or second anniversary date of your Passport Advantage contract, dependant on the anniversary coverage you selected with your initial acquisition.

For additional information including the latest changes to the IBM Passport Advantage offering, visit the IBM Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

For customer technical support, visit our Web site at:

<http://www.ibm.com/software/support>

Making the Move from Informix Assurance and Informix OpenLine

IBM is committed to providing world-class technical support and customer service for IBM Informix products. Passport Advantage Software Maintenance coverage will be available for all eligible Informix software licenses. Informix Assurance and Informix OpenLine subscribers

will be eligible to migrate to Passport Advantage Software Maintenance before or upon the expiration date of the Informix maintenance agreement. Products not eligible for Passport Advantage will still qualify for Informix Assurance, Informix OpenLine, and Informix 24 x 7 Emergency Support as defined under the Informix Product Lifecycle Policy on TechInfo Center. To view the most current lifecycle matrix, go to the Web site below, select Product Lifecycle from the navigation bar, and choose the lifecycle category you wish to view.

<http://www.informix.com/techinfo>

Passport Advantage Software Maintenance subscribers will have the ability to engage technical support via the Web or by telephone. Authorized IT staff members can initiate support incidents of all severity levels during local business hours, with the added benefit of having access to 24 x 7 technical support for Severity 1 problems at no extra charge. Since 24 x 7 coverage is a standard feature of Passport Advantage Software Maintenance, no new Informix 24 x 7 Emergency Support contracts will be initiated for products eligible under Passport Advantage. For Web-based incident submission, authorized IT staff members must be on the Web-based authorization list maintained by the Site Technical Control.

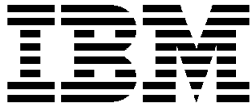

Trademarks

DRDA, DB2, and WebSphere are registered trademarks of International Business Machines Corporation in the United States or other countries or both.

Tivoli is a registered trademark of International Business Machines Corporation or Tivoli Systems Inc. in the United States or other countries or both.

Lotus is a registered trademark of Lotus Development Corporation and/or IBM Corporation.

Other company, product, and service names may be trademarks or service marks of others.

IBM US Announcement Supplemental Information

April 2, 2002

Offering Information

Product information will be available on day of announcement through Offering Information (OITool) at:

<http://www.ibm.com/common/ssi>

Publications

Informix documentation is offered in displayable softcopy form.

The Publications Notification System (PNS) is available by order number/product number. Customers currently subscribing to PNS will automatically receive notifications by e-mail. Customers who wish to subscribe can visit the PNS Web site location at:

<http://www.ibm.com/shop/publications/pns/>

The IBM Publications Center Portal:

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided, as well as payment options via credit card. Furthermore, a large number of publications are available online in various file formats, which can currently be downloaded free of charge.

Note that PNS subscribers most often order their publications via the Publication Center.

Terms and Conditions

Licensing: IBM International Program License Agreement (IPLA). Proofs of Entitlement (PoEs) are required for all authorized use.

Level of Use: Your use of a program may not exceed the level defined by the number of use authorizations you have acquired. The level of use of a program is specified by one of the following:

- **Server** — “Server” means a server on which the program is installed or executed.
- **Processor** — “Processor” means a processor that forms part of the server on which the program is installed or executed. You must acquire a use authorization for each such processor.
- **Concurrent Session** — A Concurrent Session, at a given point in time, is each logical connection, existing at that time, between the program and an end user interface device. Each such existing connection is counted as a Concurrent Session whether or not it is actually in use. If an individual end user establishes multiple connections, each one is counted as a separate Concurrent Session, even if they share a common physical pathway. The number of connections is not reduced by any program or machine, such as a front-end server or multiplexer, which may be used to concentrate the connections. Each batch process being executed at the same time is also considered to be a Concurrent Session.
- **Registered User** — a Registered User of a program is a specific individual authorized by you to use the program. Such an individual is a Registered User whether or not they are actually using the program.

However, for the Informix Dynamic Server Workgroup Edition, you must acquire use authorizations for both Servers and Concurrent Sessions. Note that each Server use authorization includes one Concurrent Session use authorization. Therefore, for example, if you require a Server and 10 Concurrent Sessions, you should acquire one Server use authorization and nine Concurrent Session use authorizations.

Informix Dynamic Server Workgroup Edition Restrictions: The following restrictions apply only to Informix Dynamic Server Workgroup Edition:

- **Server Limitation** — You may not install or use the program on a Server that has more than two processors.
- **Function Limitations** — You may not use the following functions of the program: parallel data query, data partitioning, parallel backup, parallel restore, parallel load, parallel unload, optical disks, Enterprise Replication (ER), High Availability Data Replication (HDR), VLM (ability to access more than 2 GB RAM).

Runtime Programs: The following term applies only to the IBM Informix Connect Runtime, IBM Informix 4GL Rapid Development System Runtime, and IBM Informix 4GL Compiler Runtime Programs.

You may only use the program for production.

License Information Form Number: CT0ZUNA

Limited Warranty Applies: Yes

Program Services: Program Services are available until April 5, 2003, or a later date, if indicated on the Internet at the following Web site:

<http://www.ibm.com/software/data/informix>

Money-Back Guarantee: If for any reason you are dissatisfied with the program, return it within 30 days from the invoice date, to the party (either IBM or its reseller) from whom you acquired it, for a refund. This applies only to your first acquisition of the program.

Copy and Use on Home/Portable Computer: No

Volume Orders (IVO): No

Passport Advantage Applies: Yes and through the Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

Software Maintenance Applies: Yes

Software Maintenance is provided under the IBM Passport Advantage Agreement.

IBM includes Software Maintenance with each program acquired during the Coverage Period. Coverage Period means the period commencing on the date you acquire the program up to the first or second anniversary date, depending on whether you acquired coverage for one or two anniversaries. The Coverage Period for Software Maintenance acquired in the two months preceding an anniversary date will be extended to the next applicable anniversary date.

While your Software Maintenance is in effect: IBM provides you assistance for your (1) routine, short duration installation and usage (how-to) questions; and (2) code-related questions. IBM provides assistance via telephone and, if available, electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, every day of the year. Consult your IBM *Software Support Guide* at

<http://www.ibm.com/software/support>

for further details. Software Maintenance does not include assistance for (1) the design and development of applications, (2) your use of programs in other than their specified operating environment, or (3) failures caused by products for which IBM is not responsible under this Agreement.

For more information about the Passport Advantage Agreement, refer to IBM Software Announcement 201-202, dated July 10, 2001, or visit the Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

IBM Operational Support Services — Support Line: No

AIX/UNIX® Upgrade Protection Applies: No

Entitled Upgrade for Current AIX/UNIX Upgrade Protection Licensees: No

IBM @server iSeries Software Subscription Applies: No

Variable Charges Apply: No

Educational Allowance Available: Not applicable

The following restriction applies only to the IBM Red Brick Workgroup Edition:

- Server Limitation — You may not install or use the program on a server that has more than two processors.

Prices

Passport Advantage

For Passport Advantage and charges, contact your authorized IBM Business Partner. Additional information is also available on the Passport Advantage Web site at:

<http://www.ibm.com/software/passportadvantage>

Customer Financing

IBM Global Financing offers attractive financing to credit-qualified commercial and government customers and Business Partners to assist them in acquiring IT solutions. Offerings, rates, terms, and availability can vary by country. Contact your local IBM Global Financing organization or visit the Web at:

<http://www.ibm.com/financing>

Use the "Select a Country" Menu, to find a contact in your location (or country).
