IBM Informix Client SDK continues as a supporting program for IBM Informix Editions

Table of contents

At a glance

Informix(R) Client SDK continues to be a supporting program for Informix servers.

Overview

Informix Client SDK is a supporting program for Informix database servers in the following Informix editions: Informix Advanced Enterprise Edition, Informix Enterprise Edition, Informix Advanced Developer Edition, Informix Workgroup Edition, Informix Advanced Workgroup Edition, and Informix Express(R) Edition. Customers with these Informix servers under a support contract are entitled to obtain support for Client SDK as part of their server support when Informix Client SDK is used to access the Informix server.

A previous announcement that removed Client SDK as a supporting program from some server versions, Software Announcement ZP11-0567, dated December 13, 2011, is decommitted.

You are entitled to obtain support for Client SDK at or above the version specified in your server license when Informix Client SDK is used to access the Informix server.

The Client SDK product will continue to be available as part of the Hosting products. The code was never pulled from the DVDs that make up the Informix product orderables.

Reference information
